PROFESSIONAL SUMMARY

Logic-driven Software Development student with a growing command over Java Data Structures and Web Technologies. Passionate about building scalable Agritech solutions. Seeking an entry-level developer role to apply rigorous algorithmic thinking and create impactful, user-centric systems.

TECHNICAL SKILLS

Languages: Java (DSA Focus), JavaScript (ES6), Python, PHP (Basic)
Web Tech: HTML5, CSS3, Responsive Design, MERN Stack (Learning)
Dev Tools: VS Code, Git, GitHub
Core Concepts: Object-Oriented Programming (OOPs), Data Structures, Algorithms

PROJECTS

VrikshAI (Kisan Mandi) | Full Stack & ML Integration Present

- Engineered an Agritech platform connecting farmers directly to marketplaces to eliminate middleman latency.
- Built a responsive 'Digital Mandi' frontend utilizing HTML and CSS for a streamlined user experience.
- Integrated Python Machine Learning models (.h5) to accurately detect crop diseases such as Red Rot in Sugarcane.
- Tech Stack: Java, HTML, CSS, JavaScript, Machine Learning.

CERTIFICATIONS & TRAINING

Sigma 7.0: Web Development & DSA | Apna College Completed

- Solved rigorous Data Structure problems in Java, applying optimization techniques like the two-pointer approach for array manipulation.
- Acquired hands-on experience in MERN stack architecture to understand full-cycle web development.

Intensive Technical Workshops | Short-Term Training Completed

- Python Programming (10 Days) | Logic Computer Education Center
- HTML & CSS Foundations (10 Days) | Logic Computer Education Center
- PHP Web Development (10 Days) | SR Group of Institutions

EDUCATION

B.Voc in Software Development | SR Group of Institutions (AKTU) Pursuing

Bachelor of Arts | University of Lucknow Completed
